SIX DEGREES

• *cafe* • *gallery* • *garden* •

Six Degrees aims to provide young people an optimal educational pathway for independent growth and development at a school and community level.

We envision a world in which people can influence decisions which affect their lives, enjoy their rights, and assume their responsibilities as citizens.

Six Degrees Café, Garden, Gallery intends to create lasting solutions for the ongoing training and employment of young people with a disability in our local community.

We focus on individual achievement through the support and development of strategies to realise a positive change in the economic security of young people.

High expectations, high performance, connecting with families and the community, inspirational teaching and leadership and, a quality learning environment provide a person-centred approach beginning from your first connection with Six Degrees Café and continuing throughout your partnership with us.

Thank you for your support

****Also available for purchase are a wide range of artworks and items designed and created by students**
